

## Create and configure IBM Cloud services

### Create Node-Red Services

Date	14 OCTOBER 2022
Team ID	PNT2022TMID28556
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES
Maximum Marks	4 Marks

Node-RED interface showing a flow configuration. The flow consists of two nodes: "Hello NodeRed" and "msg-payload". The "msg-payload" node is connected to the "Hello NodeRed" node. The interface includes a sidebar with node categories (common, function) and a right panel displaying information about the selected node (msg-payload).

The right panel shows the following information:

- Node: "9060cf1fe964db8f"
- Type: debug

The flow configuration nodes are listed in the sidebar panel. It can be accessed from the menu or with `ctrl-g`.

The interface also displays a status bar at the bottom indicating the temperature (28°C) and the time (14:19, 09-11-2022).
